

Organization Kolhapur Municipal Corporation (KMC)

Industry: Government

Client Information : Kolhapur municipality was established in 1854. Establishment of municipality initiated planning of modern Kolhapur city. Efforts were made with elaborate planning to develop stable and comfortable city life. The radiant indication of modern enhancement of city growth, happiness, health & beauty started reflecting in various fields.

The period from 1941 to 1944 was the golden period in the history of municipality. There were major changes in various fields. In the three year election of March 1941 local self-government was established. A control board of three persons i.e. Bhai. Madhavrao Bagal, Seth Govindrao Korgaonkar, Shri Ratnappa Kumbhar was appointed in it. Motto of this board "To reserve the society without any discrimination. There is no linking of this board to any political organization. Whatever rights are confessed by government to citizens should be utilized fully is prime duty of the board." is declared in the board's manifesto.

Modules Implemented : CAD scrutiny Engine & Workflow Management

Objective: To create a common platform in the ERP system which can be shared along with other citizen facilities.

Project Description: AutoDCR Solution has been implemented and integrated with HCL ERP system to have a smooth operation and have better coordination with all other departments.

Issue and Challenges:

- Complex nature of land records and many rules interrelated to each other
- Authorities engaged were interpreting the rules as understand them thus allowing a lot of subjectivity of the interpretation
- No standard process for determining the efficiency of the staff
- Coordination with other departments having placed in a same platform/system

Solution: SoftTech has implemented AutoDCR system in KMC for Town Planning department and this system has been integrated with HCL ERP system.
