

RuleBuddy[®] PLAN ASSIST[™]

Complete Building Plan Checking Solution

▶ RuleBuddy®

Welcome to RuleBuddy® an e-commerce portal providing novel software & services to Architects, Consultants, Builders & Investors - to gauge the feasibility of their building projects; during early stages of design and conceptualization.

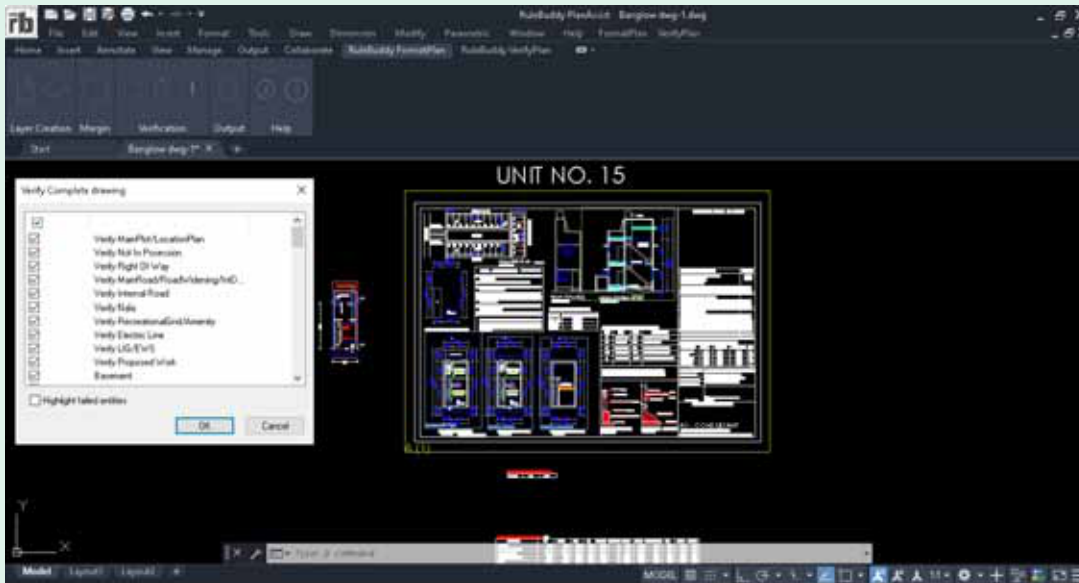

▶ RuleBuddy® PLAN ASSIST™

An innovative software product on RuleBuddy® platform.

RuleBuddy® PLAN ASSIST™ is a unique software product offering astoundingly reliable functionality to create & pre-check your building plans before submission to authorities; for faster, smoother and assured approvals.

Powered by AutoCAD® OEM Platform, RuleBuddy® PLAN ASSIST™ provides all the necessary functionalities to create, edit and pre-format your building plans eliminating dependency on any 3rd party CAD software.

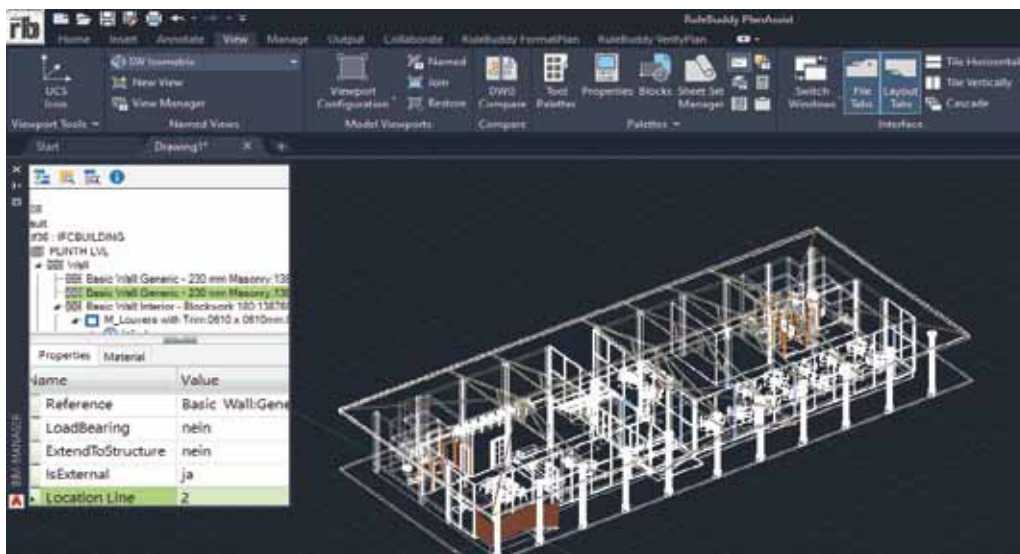

▶ Why RuleBuddy® PLAN ASSIST™

- ▶ Save your time & money by quickly preparing “ready-to-approve” building plans.
- ▶ Instantly identify errors in the building plans – and correct them with ease.
- ▶ Swiftly check your building plans for applicable building bye-laws.
- ▶ Obtain peace of mind by minimizing re-submissions.
- ▶ Easily satisfy your FSI requirements of complex building projects.
- ▶ No need to invest in any third party CAD software license!

▶ Features & Functionalities of RuleBuddy® PLAN ASSIST™

- ▶ Create accurate, ready to pre-check, pre-formatted building plan drawings in a familiar CAD environment.
- ▶ Identify and visualize the errors or non-conformities in the drawings & highlight them in different colors.
- ▶ Automatically calculate the areas for building plans even in complex and big projects with accuracy & speed.
- ▶ In built ‘AI (Artificial Intelligence) Empowered’ scrutiny engine to quickly and easily check whether the building plan passes the scrutiny for applicable building bye-laws or DCR (Development Control Regulations) of relevant authority.

- ▶ Make multiple revisions in drawings on-the-go to arrive at optimum design of the building plan. Dramatically increase the probability of getting it Right The First Time.
- ▶ Powered by AutoCAD® OEM platform, offers the world's most stable and proven CAD technology. No need to buy cheap and inferior 3rd party CAD software.

▶ Licensing:

RuleBuddy® PLAN ASSIST™ comes with a perpetual license, increasing your ROI and adding to your assets. AMC includes updates and online technical support.

▶ About Us:

SoftTech Engineers Limited are the developers of AutoDCR® - an award winning software, which has become the de facto standard in the AEC industry for building plan approvals. Being the leader in Online Building Plan Approval Systems in India, substantiated by the experience of implementations in 500+ ULBs, SoftTech is proud to showcase a deep understanding and unparalleled insight into the challenges of obtaining building permits. This exclusive knowhow is the backbone behind the RuleBuddy® portal and RuleBuddy® PLAN ASSIST™ software.
